## Intermittent Lane Closures for 16th Street NW Bus Lanes Project August 16 through August 27, 2021

(Washington, DC)—The District Department of Transportation (DDOT) is advising all stakeholders to expect the continued intermittent closing of northbound and southbound travel lanes on 16th Street NW from Irving Street NW to Euclid Street NW, and at the intersection of Columbia Road/Harvard Street/Mt. Pleasant Street NW, from Monday, August 16, 2021 through Friday, August 27, 2021, weather permitting.

**These intermittent lane closures will occur one lane at a time during the off-peak hours of 9:30 a.m. to 3:30 p.m., Monday through Friday, with the exception of paving operations which will take place overnight during the hours of 8:00 p.m. – 5:00 a.m.**

Roadway users should expect short interruptions to two-way traffic. Travel lanes will be tapered as necessary to allow for the safe channelizing of traffic. Temporary sidewalk closures may be required during construction. Pedestrian channelizers, detours, and signage will be installed when these sidewalk closures are needed.

These intermittent lane closures and activities are necessary to complete work related to the 16th Street NW Bus Lanes project from Arkansas Avenue NW to K Street NW. The following construction activity will take place in the upcoming week, weather permitting:

- **16th Street NW at Columbia Road/Harvard Street/Mt. Pleasant Street NW** – continue installing traffic signals, traffic cabinets and pole bases. Parking will be restricted on the northbound side of 16th Street NW and Columbia Road NW from 7:00 a.m. to 5:00 p.m., Monday through Friday.
- **16th Street NW from Harvard Street to Fuller Street NW** – continuing the installation of electrical manholes and electrical duct bank. Parking will be restricted from Harvard Street to Fuller Street NW from 7:00 a.m. to 5:00 p.m., Monday through Friday.
- **16th Street NW from Irving Street to Euclid Street NW** - Milling, Paving, and Striping operations will begin from Irving Street to Euclid Street NW the week of August 23, 2021. Milling and striping operations will take place during off peaks hours from 9:30 a.m. – 3:30 p.m. Please note that the paving operation will be performed overnight during the hours of 8:00 p.m. – 5:00 a.m. Detours will

be in place for vehicles traveling northbound and southbound along 16th Street NW. Please adhere to the **No Parking signage** posted. Visit the “**Schedules Tab**” on the project website for milling, paving, and striping details. Detours will be provide prior to the start of overnight work.

Traffic controls, including signage, will be in place to guide motorists and pedestrians safely through the work zone. All users of the roadway are advised to stay alert and be observant of signage and work zones while traveling in this area.

Once completed, the 16th Street NW Bus Lanes project will improve the performance and reliability of bus routes and pedestrian access along 16th Street NW from Arkansas Avenue NW to H Street NW. This project is anticipated to take a full year to complete.
